

Case Study: **Johannes Link - Founder, johannes-link.com**

My name is Johannes Link, I am from Germany. What I do is I help coaches, get more clients and make more money, I help them with their marketing and help them with their business.

What was your life like before the program?

So the last couple of months, or maybe even like one or two years, my business was very stagnant was kind of not I wasn't wasn't really growing, I was just doing, I was just doing what needed to be done. And I kind of like felt like it was asleep in some sense.

What was your reaction when you first saw the offer?

So the funny thing is, I've been through Todd's 90 Day Year program, I think 2018 a couple years ago. And since then, I really liked it, I thought it was amazing. And since then I've been on his email list. And I had several moments where I had to make it all wanted to make the decision to get rid of more emails. And I always struggled with unsubscribing from Todd because I suffered so good, so good. And then at one point, the, and I always stayed on the list. And at one point, when the program came, I thought, Oh, this is like the next step for me, even though I didn't really know what to expect, really. But I knew his stuff is good. And so I just felt Okay, I'm right at a point where I have to make decisions and go to the next level. And so it was good for me to have some help have some coaching. And that's why I just said, Okay, I'll do it. Because I know from experience how great Todd's stuff is.

What are some results you've had since joining?

So before I wasn't really I didn't have a lot of clarity like how, who, who I wanted to talk to who was my ideal client, I worked with a different range of clients. And I got a lot more focus a lot more clarity. And I had more people reaching out to me and ask me to work with them. So I got more clients by doing the program, I feel like I've better clients as well, people, I really have the feeling I can really help them and they get really good results. I think the results my clients get are better now because of it because I have this clarity because the things I learned, how Todd does it in his program and I could implement as well. So yeah, it's really great. I really feel like that now I've gotten some momentum going that more clients reach out to me I get better results, better testimonials and now I feel like this is like really going now and I'm really excited to see what will happen like in the next next half a year next a year because I think this will really really grow. I raised my prices as well because of the better results so it's just really going great. Yeah, so if you don't know really what to do next, or you need some clarity around how to grow your business, what is the right thing to work on, and also you need the system structure to do the work over and over again. If you're thinking about it, you should probably just jump and do it and get into PRO.
